## For Provisional Licensees

Provisional licenses help cannabis operators, particularly small, equity, and legacy cannabis businesses, transition into the legal market. They provide cannabis businesses with a pathway to enter and remain in the legal market while they complete local permitting and California Environmental Quality Act (CEQA) requirements.

This map shows which cities and counties license cannabis businesses. To see which ones license a specific type of business, use the “filter by business type” dropdown. Select a specific county to view a detailed county map.

The Department of Cannabis Control (DCC) updated the data on this page in November 2022. The DCC reviewed city and county laws and websites. The DCC also contacted cities and counties for this information. If you’re a city or county official and think your data is not correct, email [locals@cannabis.ca.gov](mailto:locals@cannabis.ca.gov).
